

To Whom It May Concern:

This testimonial is for the service, which Glen Peterson provided for Red Robin at our Victoria location. Glen provided prompt and efficient service at all times. Glen's wide area of expertise, backed by his many certificates allows him to complete many tasks at once. Repair dollars were saved, because Glen was able to complete all repairs without having to bring in another service technician. Glen's ability to clearly communicate all technical information both in person, as well on his invoices makes dealing with Glen very easy. Over all I always found Glen Peterson 's work fairly priced, and have no hesitation in recommending his expert service.

Sincerely,

A handwritten signature in blue ink, appearing to read "Vic Pantaleo".
