To Whom It May Concern,

Mr. Glen Petersen has been a plumbing contractor in the City of Victoria for a number of years. I personally have inspected Glen's work for over 10 years. This work has varied from repair work to medium sized construction projects.

In dealing with Glen, I have always appreciated his calm methodical approach to problems and the prompt attention he has given to details and requests for information. His projects have always been completed in a timely manner with few or no loose ends allowing businesses to open or carry on as they planned.

I would highly recommend Glen to anyone looking for first class plumbing repairs or new construction. He is reliable, honest, innovative and has a good reputation with Inspectors and clients in the Victoria area. If you need any further information, please contact me at the City of Victoria Permits and Inspections Division weekdays from 8:00 a.m., to 10:00 a.m., at 250-361-0345.

Yours truly,

Don Wilson
Plumbing Inspector
