To Whom It May Concern:

This is to certify that Glenn Petersen has been employed by us to install plumbing and heating systems in the schooners *Pacific Swift* and *Robertson II*.

Both of the above are large sailing vessels that travel extensively and we required workmanship of the highest calibre and systems which would stand constant use. I am pleased to say that Glenn has fulfilled these qualifications admirably.

I would not hesitate to recommend him most highly to any employer desirous of utilizing his remarkable skills as we hope to do upon the launching of our newest vessel.

Yours truly,

A handwritten signature in blue ink, appearing to read 'Martyn Clark', with a long horizontal flourish extending to the right.

Captain Martyn Clark
Executive Director.
